Customized Sleep Apnea Solutions

Dr. Karel Vandervelden, DMD D.ABDSM
Phone (616) 741 9035 | Fax (616) 772 9380

Complimentary Home Sleep Study And Evaluation With Sleep Medicine

For patients you suspect have sleep apnea, or have previously confirmed sleep apnea, but would like a new or updated multi-night baseline home sleep study completed and interpreted by a Board Certified Sleep Physician, fill out this form and fax to 616-772-9380

Charge to patient: ZERO (we also don't bill their insurance for this service)

What's the catch? I simply require patients to complete a complementary consultation with me to learn about my services. There is no obligation for the patient to move forward with my care.

We are much faster than local sleep clinics. It takes only a few weeks, not months, for patients to complete sleep testing, complete their workup with our partnering sleep physician group (virtual), and complete their free consultation with Dr. Vandervelden.
